CLARK SOIL & WATER CONSERVATION DISTRICT

## 2025 Tree Seedling Sale

**We are only having a ONE DAY pick up on THURSDAY, APRIL 17 from 9:00 AM - 7:00 PM**

**Now accepting tree orders on-line!**

Visit [www.clarkswcd.com](http://www.clarkswcd.com) for more information.

Although winter has set in, it's time to start thinking about outdoor activities for Spring. Clark SWCD is ready to kick off our conservation tree seedling sale for 2025.

This is an opportunity to purchase native tree species for landscaping, establishing a windbreak, enhancing wildlife habitat or for planting future timber harvest. We will be offering 16 different species of trees and evergreens.

As a reminder, these are bare-root tree seedlings ranging from sizes of 6 to 24 inches and the best chance for survival is to plant them as soon as possible and in a suitable location.

**Tree species descriptions and order forms can be found inside!**

Surplus seedlings will be available at regular prices, but supplies will be limited.

All items listed in this newsletter include the Clark County sales tax rate of 7.25%

**IMPORTANT DATES**

**Tree Pre-Order Deadline:**

\* Friday, March 28th

**Tree Pick up Date:**

\* Thursday, April 17th 9am - 7pm

**PLEASE NOTE**

Surplus seedlings will be available at regular prices, but supplies will be limited.

## Bird Boxes & Feeders

### NEST BOXES

Bluebird and Wren nest boxes are available for sale this year. Other nest boxes are also available for special order through the Clark SWCD. These nest boxes are constructed from kiln dried cedar. They feature an overhanging roof with ventilation, bottom slots for drainage, and easy open front for monitoring and cleaning.

### HANGING BIRD FEEDERS

Feeders hold approximately 3 lbs. of mixed bird seed. Features include a removable screen bottom, aluminum hinges, metal chain for hanging. *These are handcrafted quality.*

# Wildflower Seeds

## WILDFLOWER SEED MIX

The Clark SWCD will be offering wildflower seed packets. Each one ounce packet will cover approximately 250 sq. ft. The wildflower mix is an excellent way to establish wildlife buffer for hummingbirds, butterflies and other wildlife. The wildflower seed mix contains such flowers as coreopsis, coneflower, snapdragons, black eyed Susan and yarrow. For a complete list of the seed mix please contact our office at 937-521-3880.

# Fish Fingerling Sale

Fish fingerlings will be available this year to stock farm ponds. The species available include: Bluegill, Hybrid Bluegill, Redear Sunfish, Channel Catfish, White Amur, Largemouth Bass, Black Crappie, Jumbo Yellow Perch, Minnows, and Tilapia. **Order form and pick up information can be found on page 5.**

## 2024 Year in Review

### H2Ohio

- 44,145 acres enrolled in H2Ohio

### CRP

- 34.25 acres Grass Waterway Projects Constructed (CRP)
- 14 Grade Stabilization Structures (CRP)
- 78,040 feet of Subsurface Drainage Installed (CRP)

### EQIP

- 30.25 acres of Waterway Rebuilds Planned (EQIP)
- 3.15 acres of Waterway Rebuilds Constructed (EQIP)

### CAUV

- 287 Parcel/Application Reviews (CAUV)
- 33 Compliance Site Inspections
- 5 Forestry Management Plans

### Agricultural Pollution Abatement Program

- 2 Agricultural Complaints Investigated
- 1 Forestry Complaint Investigated

### Ponds

- 3.25 acres of Ponds Constructed
- 18 Pond Management Assistance
- 7 Pond Site Evaluations

### Ohio EPA Phase II Storm Water Permit

- Provided leadership for Clark County & Urbanized Townships

### 2<sup>ND</sup> ANNUAL CONSERVATION PROGRAM OVERVIEW

WHEN: JANUARY 14<sup>TH</sup>, 2025

Looking to learn more about governmental programs, cover crops, and scholarships? Come join us for an overview of programs, lunch, and the ability to ask questions as it pertains to your operation.

AGENDA:  
10AM-10:30AM - MEET AND GREET  
10:30AM-12PM - PRESENTATIONS  
12PM-12:45PM - LUNCH  
12:45PM-2PM - QUESTIONS

USDA is an equal opportunity provider, employer, and lender

This event is hosted by the following partners

We recently partnered with Clark County Farm Bureau, NRCS, FSA and Soil & Water Outcomes Fund. This collaboration was the 2nd Annual Conservation Program Overview. The partnership with these agencies provides education on governmental programs and funding, additional non-government incentive programs and available scholarship opportunities.

# Tree Species Descriptions

## **Wind Break Packet:**

Contains 60 seedlings consisting of 20 White Pine, 20 Norway Spruce and 20 Scotch Pine.

## **White Pine:**

A fast growing evergreen with long, soft needles. This makes an excellent tree to be used as a windbreak or for screening.

## **Scotch Pine:**

A medium to slow growing evergreen tree with bluish-green needles. This tree makes a good windbreak when the tree is young, as the tree ages the lower branches die out. This tree will grow in a variety of soils as long as they are well drained.

## **Norway Spruce:**

A fast growing evergreen with short, dark green needles and can reach 40'-60' in height. Tree makes an excellent windbreak and Christmas tree.

## **Colorado Spruce:**

A slow to medium growing evergreen with short silvery-blue needles and can reach 30'-60' in height. This tree prefers rich, moist soils however it is more drought tolerant than other spruces. Tree makes a very attractive windbreak or Christmas tree.

## **Dawn Redwood:**

Fast growing deciduous tree that resembles a Sequoia both in growth and foliage. The soft, bright green needle foliage turns to a bronze in the fall. The Dawn Redwood likes moist well drained soils and should be planted in an area that is protected from the winter winds. An excellent tree when placed on the banks of a stream.

## **White Oak:**

A slow to medium growing oak that can reach up to 50'-80' in height. This tree prefers slightly acidic to neutral, deep, moist, and well-drained soils. While it does produce acorns it also delivers beautiful fall color and can live for centuries.

## **Sweet Gum:**

A medium growing pyramidal in shape tree that will reach heights of 80' to 120' in height. The tree has a glossy, star shaped leaf with a deep purple fall color. This tree grows on moist to wet, acidic soils and is commonly found in swamps and near ponds or streams.

## **White Cedar:**

A slow growing evergreen, often used to create privacy. This tree prefers full sun and moist, well drained soils. Will grow 40' to 60' tall.

## **Northern Pecan:**

A medium growing tree native to Ohio that produces an edible nut. This tree prefers rich, moist soils and will grow 70' – 100' in height.

## **Tulip Tree:**

A large sized tree that can reach a height of 100 feet when mature. The leaves are similar to the shape of a maple leaf. This tree produces a greenish white color flower in mid June. The tree is commonly found in established forests throughout Ohio.

## **White Dogwood:**

A slower growing species that is mostly found in established forests as an under story tree. This tree which grows to a mature height of 25' has excellent white flowers in the spring and red fruit in September to October which birds love to eat. Likes well-drained acidic soils and be sure to plant in a protected area.

## **Redbud:**

A medium growing under story tree which is found native in established forest across Ohio. This tree which grows 20' to 30' tall has edible purple flowers in the early spring and dark green leaves throughout the summer.

## **River Birch:**

A medium to fast growing tree excellent for low swampy areas and along streams. This pyramidal shaped tree grows 40' to 70' tall, likes acidic soils, has beautiful exfoliating bark and a yellow fall color.

## **Serviceberry:**

A medium growing small tree found native in established forests across Ohio has white flowers in the spring, glossy and dark green leaves in the summer changing to an orange/red fall color. The service berry has red fruit in early June which is edible and taste similar to a blueberry. Excellent tree for wildlife!

## **Red Maple:**

A fast to medium growing native tree that has bright red flowers in early spring, however its known for more for its brilliant red fall color. This popular shade tree tolerates wet soil conditions and grows 40' to 60' at mature height.

## **Ohio Buckeye:**

A moderate growing tree that can grow 20'-40' high and can spread as wide as it is tall. This tree produces clusters of yellow-green flowers and spiny fruit that contain buckeyes. The Ohio Buckeye will grow in full sun to part shade but does prefers moist, fertile soils.

*Ordering information &  
form on pg 4.*

\$32.62 (cost of fish) + \$2.37 (sales tax) = \$35.00

## Scholarship to be Offered!

Attention high school seniors and college students of Clark County. The Clark SWCD will be taking applications for students who will be enrolled at a college or university for the fall of 2025. *Current college students are eligible.*

**Clark SWCD will award two \$1,000 scholarships.** The applicant must be pursuing a degree in natural resources, agriculture or related field. The deadline for the scholarship is Friday May 2nd, 2025. The winners will be selected at our May board meeting.

**Please complete the online application on our website [www.clarkswcd.com](http://www.clarkswcd.com). Please call the office at 937-521-3880 with any questions.**

## Why Stock Tilapia?

- Tilapia can make pond management easy
- Eat many common types of algae, duckweed, watermeal, and other nuisance aquatic vegetation
- Work well with amur because tilapia prefer filamentous algae and blue green algae and amur don't
- Spawn every 18 to 21 days once they reach 4" and water temperature is above 68 F
- Females can lay up to 1500 eggs
- Control muck
- Reduce unpleasant odors from gases
- Eco friendly solution to controlling algae with little to no chemical use
- Great substitution to bluegills, because they don't take over the pond

## Clark SWCD Welcomes New NRCS Soil Conservation Technician!

Brady Wilson recently joined the Natural Resources Conservation Services (NRCS) as a Soil Conservation Technician for Clark and Madison County here in Central Ohio. He grew up in Milford Center in the neighboring county of Union so he is very familiar with the type of environment he will experience in those counties. He is a graduate of The Ohio State University with a bachelor's degree in Natural Resources Management. Since his graduation in December of 2021, he has been a Pond Manager for Aquatic Plus Pond based out of Lebanon, Ohio. Throughout his professional career, he has worked many

different positions for Ohio Department of Natural Resources (ODNR) but is new to the federal side of conservation. He will be working with Chris, Ty, Broc, and Emma out of Clark and Madison Counties. If you ever see Brady in the field, please reach out and welcome him to the area!

# 82nd Annual Meeting Highlights

The Clark SWCD held the 82nd annual meeting and election for the Board of Supervisors at the Clark State Hollenbeck Bayley Conference Center on the evening of September 24th.

## Board of Supervisors Election Results:

**Brent Pence** was re-elected to the Clark SWCD Board of Supervisors and will serve until December 31, 2028. Congratulations to Brent and thank you for your continued support to Clark SWCD

Brent Pence

Clark SWCD Board of Supervisors Chairman, Brenna Cross, delivers the oath to Brent Pence

**Olivia Lemen, Micah Mattinson, and Jacob Zimmerman** are the winners of the 13th Annual Dale Stewart Conservation Scholarship. Congratulations Olivia, Micah and Jacob!!

The annual government-wide **Feds Feed Families (FFF)** Food Drive took place at the Annual Meeting. Together we gathered **fifty-two pounds** of non-perishable food items for those in need. These food donations went to the Second Harvest Food Bank of Springfield.

## PUBLIC NOTICE

The regular meetings of the Clark County Soil and Water Conservation District shall be held at 7:30 a.m. on the 3rd Tuesday of each month. Unless otherwise advertised all meetings will be held at the Springview Government Center, 3130 East Main St., Springfield, Ohio. Please go to [www.clarkswcd.com](http://www.clarkswcd.com) to verify changes to meeting time and date.

Glen Courtright of Madison Township was awarded the 2024 Cooperator of the Year Award sponsored by the Ohio Federation of Soil and Water Conservation Districts and the Ohio Department

of Agriculture. The award is part of a state program sponsored by the Ohio Federation of Soil and Water Conservation Districts and the Ohio Department of Agriculture. The program seeks to recognize individuals who have made significant contributions to the conservation of our natural resources. George was nominated for the award by the Clark Soil and Water Conservation District Board of Supervisors and Staff. Congratulations Glen!!!

## Annual Meeting Keynote Speaker

The Clark SWCD held the 82nd annual meeting and election for the Board of Supervisors at the Clark State Hollenbeck Bayley Conference Center on the evening of September 24th. The Keynote Speaker for the evening was **Glen Courtright**.

Not only was Glen Courtright our Cooperator of the Year he was also our Keynote Speaker for the evening. Glen Courtright's journey from a decorated military career and successful engineering entrepreneur to managing and revitalizing Green Plains Farm is quite inspiring.

In 2015, he embarked on a major reclamation project at Green Plains Farm, a property that had been neglected for decades. His efforts to restore and enhance the land involved tackling invasive plant species, rehabilitating abandoned quarry sites, and reviving the property's productive capacity. Today, Green Plains Farm produces forage crops and raises grass-fed American bison and Corriente cattle but also offers a unique boutique lodging experience.

His story offers valuable insights into sustainable farming practices and the rewarding process of restoring and repurposing land.

Serving on The Board of Supervisors for 2025 are Brent Pence (Chairman), Brenna Cross (Vice Chairman), Kevin Mattinson (Treasurer), Roger Wright (Secretary) and Brian Funderburgh (Fiscal Agent). For additional information please call Chris Simpson, District Administrator at 937-521-3880 or go to [www.clarkswcd.com](http://www.clarkswcd.com)
